***Note- The Meaning of Desktop screening:**

For better experience of the desktop screening, we will offer good quality computer systems to watch the selected films. You can watch all these films once or again and again as per your comfort.

Please make a note of that these films will not be screened separately at all. The desktop screening films are chosen out of the best films received by us. But due to extremely tight screening schedule during the festival, we have made special arrangements for the audience to watch these films.

This step is basically taken by us to provide the opportunity to as many numbers of filmmakers to participate in JIFF. This is also very helpful in enabling the phase of communication in between the participating filmmakers.
